

DYNAMIC FLOW IN THE WORKPLACE

Participants learn how to create a balanced exchange with themselves and others, perform a three-minute inquiry process to balance being and doing, identify contrasts in interactions, and achieve flow toward the strategic direction of the organization.

The program includes:

- Assessment,
- Two days of training, and
- Three months of action learning.
 - The action learning includes professional coaching and peer reviews.
 - Then use our card deck—*Presence: Bite-sized wisdom for global leaders*—as a Job Aid to continue applying the concepts on a daily basis.
